

Health Department,
Town Hall,
Spennymoor.
April 20th. 1942.

Medical Officer's Annual Report for the Year 1940.
Urban District of Spennymoor.

Considering the recommendations of circulars 1961 and 2067,
for annual reports to contain only matters essential and urgent which
may affect the public health, I consider that in view of the influx,
into the Area, of evacuee children and mothers also workers from other
districts, the health of the Public has been most satisfactory.
I therefore have nothing of an urgent nature to report.

^t
Statistics supplied for the year have been carefully preserved.

Signed,
B. V. Tomisley M.B. V.P.
Medical Officer of Health.

Medical Officer's Annual Report for the year 1934
Urban District of Birmingham

Considering the recommendations of the year 1933, and the
for annual reports to contain only matters of importance
may affect the public health, I consider that in view of the
into the area, of evanescent children and mothers also women
districts, the health of the public has been most satisfactory
I therefore have nothing of an urgent nature to report.
Statistics supplied for the year have been carefully prepared
